

Low-Income Home Energy Assistance Program

What is it?

LIHEAP assists low-income households pay their home heating bills through:

- Cash grants from \$500 - \$1500
- Crisis grants of up to \$1200
- Furnace repairs and/or replacement for broken furnaces

Households may be able to get all of the above

Types of Grants

Cash grants are for income eligible households who have home heating responsibility. You do not have to be behind in your bills or shut off to qualify!

Crisis grants are for households whose heating service is turned off or about to be turned off or without heat because lack of fuel.

Eligibility:

- Household income at or below 150% federal poverty level
- Must have home heating responsibility (i.e., responsible for paying for your heat)
- For crisis grants, in addition to the above, must have an emergency heating situation
- For furnace repair/replacement, your heating appliances must be not working.

Applications Accepted from October 18, 2021-May 6, 2022. Learn how to [apply](#).
